

# WE ARE GHOST WORKS

**LND** has evolved.

Our process is similar,

But has manifested in a NEW, elevated form.

Our team and capabilities have expanded,

Inviting us to explore

Who *we are* as designers.

Who *we are* as a unit.

Who *we are* to our clients.

As this emerging vision has shifted shape, so has our name,

Into a new identity that fittingly reflects this transformation

From a single individual, to a growing entity of

Ghost Designers.

Incognitos.

An invisible force—

Appearing and disappearing as necessary.

And that is why,

Without changing OR staying the same,

*We are* - **Ghost Works**.
